LB 371, 399, 406, 430, 494, 592A, 837  
LR 81

cut back and narrow the base with exemptions and tax credits or tax breaks or whatever, in some cases justified, as it sounds like in this case, in other cases not. I think we have to be ever vigilant about narrowing the tax base and I don't know how many times we come with bills that actually broaden it. It doesn't happen very often but I guess the point I'm trying to make is that this is moving along fairly easily and had it been a reverse situation it would have been a much more difficult process. But, anyway, I understand and I appreciate the explanations. Thank you.
